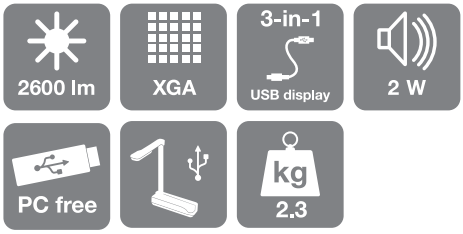
Epson **EB-X11** projector

DATASHEET



Make your school's budget go further with the Epson EB-X11 – the high-quality XGA projector with a wide range of features and an affordable price tag.

Packed with user-friendly features, the EB-X11 is straightforward to set up and use, allowing you to focus on teaching. With equally high White and Colour Light Output of 2,600 lumens, and 3 000:1 contrast ratio, you can achieve a bright, sharp image. Epson's 3-in-1 USB Display feature means that one cable is all you need for picture, sound and page up/down control – it's the fastest way to display what's on your PC or Mac. Alternatively, using the PC-free feature, you can present still photos directly from a USB stick without powering up your computer.

Aligning the picture is quick and easy with both automatic vertical keystone and manual horizontal keystone adjuster. The horizontal keystone slider is an innovative and intuitive new design feature from Epson, making it easy to adjust images to the correct shape when the projector is placed at an angle to the screen. This compact and stylish projector is very well-suited to installation thanks to a host of useful features. The direct power on/off feature enables the projector to be turned on directly by pressing the wall switch while the tailor-made ELPMB23 optional ceiling mount makes installation quick and simple.

Capture the attention of your class by plugging the optional Epson USB Visualiser ELPDC06 directly into the projector to give a close-up view of 3D objects – perfect for science experiments. A built-in 2W speaker ensures students won't struggle to hear, and distracting hot air is kept away from your audience by the projector's front exhaust.

KEY FEATURES

- Sharp picture quality thanks to 2,600 lumens and 3 000:1 contrast ratio
- 3-in-1 USB Display: one USB cable is all that's needed for picture, sound and page up/down control
- PC-free: present still photos directly from USB storage devices
- Automatic vertical keystone correction and manual horizontal keystone correction adjuster for easy set-up

Eliminate the need for photocopies: share 3D objects using the ELPDC06 visualiser

Horizontal Keystone Correction Adjuster: This intuitive new slider lets you adjust images to the correct shape when the projector is at an angle to the screen
